Worksheet: Parasite 寄生上流 & SDG 1 - No Poverty

■ **Movie:** Parasite 寄生上流 (2019, South Korea)

"Parasite" shows two families in Korea: one is very rich, the other is very poor. The poor family lives in a small, dark basement and has no jobs. They try to work for the rich family to earn money. This movie shows how poverty and inequality affect people's lives.

Reading: What Is SDG 1 - No Poverty?

The United Nations created 17 goals to make the world better. Goal 1 is No Poverty. Poverty means people do not have enough money, food, or a safe place to live. Many families around the world still live in poverty. SDG 1 wants to end extreme poverty by 2030. That means helping people find jobs, go to school, and live safely. To end poverty, we must understand the problem and take action together.
